### **What Information Do We Collect?**

We collect Personal Data from you when you subscribe to our curriculum, register for certain programs and newsletters, and when you voluntarily choose to provide such information such as when you purchase products or otherwise enter your Personal Data on the Sites. Wherever we collect Personal Data we make an effort to provide a link to this Privacy Policy.

**Information Collected from Children:** The studio252.tv Site offers children the opportunity to sign up for the Site and create a “StudioID” and password. In this initial registration process, we directly collect from child users a parent’s email address, the child’s account name, and the child’s password. We do not collect the child’s personal name. The studio252.tv Site requires child users to provide a parent’s valid email address in order to register on the website. We use this information to send the parent a message that can be used to activate the studio252.tv account, to notify the parent about our privacy practices, to send the parent communications either about studio252.tv accounts or about features of the Site, and for the other purposes described in this Privacy Policy. The child’s account is not activated until the parent completes this registration process.

The parent's email address is correlated with the "StudioID" user name. Parents are required to approve all changes to the account and are given access to view all information correlated with the "StudioID," including analytics regarding what the child has viewed on the Site. Children may vote for content they like and otherwise interact with the Site through their "StudioID." Parents may at any time cancel the child's account and ask that RT remove Personal Data associated with their child's "StudioID."

**Other Collection of Personal Data:** So that RT may improve its products and provide you with efficient customer service, from time to time, RT may request information, including Personal Data, about you and your organization. Information we may collect includes Personal Data such as names, postal addresses and email addresses, demographic information such as age, gender, and zip code, and information regarding the demographics or your organization. We also may collect non-personally identifiable technical data such as your browser type, IP address, domain, access times, installation data, error and other use codes, and referring web site address.

**Posting Content:** Certain sections of the studio252.tv Site offer families the opportunity to upload their images, videos, stories, and other content to share with other users of the Site. The parent is required to log in to the Site to upload any such content, which is stored and displayed in connection with the designated "StudioID." Children are not permitted to upload such content themselves. You acknowledge by uploading such content that you own copyright to the content uploaded, that other users of the Site are permitted to view the content, and that RT may use the content on the Site and in promotional and marketing materials related to the Site and RT.
